BULLETIN 2019-001

CACC Vehicle Number Policy

Background

CACC competition discipline vehicle numbers are used to quickly identify individual vehicles during competitive events. Vehicle numbers must be displayed in the size, quantity and location as indicated by each discipline's regulations. Vehicle numbers are managed by the CACC in adherence with the following guidelines.

Policy

1. Vehicle numbers are assigned on a first-come, first-served basis.
2. Vehicle numbers are renewed annually during the CACC competition license renewal process.
3. Vehicle numbers not renewed when a driver submits their competition license application are considered abandoned and available for reassignment to others.
4. Vehicle numbers renewed but not used in a CACC-sanctioned event for two consecutive years will be eligible for revocation and reassignment.
5. Vehicle numbers are assigned at the discretion of the CACC and, as a condition of use, must be surrendered when so requested by the CACC.
