Meeting Minutes

Jonathan moved to adopted the fall minutes, seconded by Geoff

Old Business: Has there been any races under the new regulations for the new regulations for cars newer than 1997 running wheel to wheel, rubber to ice without role cages. Nobody has any first hand information on these events.

New Business: Clay Sutherland - PRMA wants to discuss bringing back a more aggressive stud because they have harder, deeper ice. Has had discussions with Neil about this. This would be for Ice Cross, single cars at a time. The course would still be designed keep speeds down.

Neill – course design would be

Kevin – Because there has only been one club previously putting on events, the rules have been tailored to suit the needs of Cars on Ice, but he suggests that regulations can be changed to suit multiple clubs.

Genevieve – Rule changes need to be submitted before October, questioned the reference to side by side racing that goes on in the north.

Clay – Ice Racing is becoming popular up there, they had 29 competitors at their first event. Discussion if side by sides can be used, he reviewed regulations and believes they are legal.

Neil – There used to be a class for 3 wheel vehicles

Kevin – Cars on Ice reviewed safety concerns of side by sides and were going to experiment with them at Ashcroft but the competitors never showed up.

Clay – Asking if anyone wants to be on an email chain to help revise the regulations

Genevieve – suggests writing the documents and circulating them via Google Docs

Jonathon – would like to get more information from Clay regarding side by sides

Clay – Well received by city, part of winter festival in town, received a grant from city

Geoff – suggests using a highest average speed similar to way rally does

Clay – His proposal includes that. He’s been researching how things are done by ice racers in the USA for unlimited studs. Their events are held at Charley Lake in Fort St John. They have a boat ramp you can drive your cars down to get onto the ice.

David – Congratulations to your club for the development and community building PRMA has done
Motion to Adjoin.
